

# South Phoenix Two Basins Project

For 52 years, the Flood Control District of Maricopa County (District) has provided regional flood control services and projects to protect the lives and property of County residents from the hazards of flooding. You are invited to learn about a flood control project currently in progress in your neighborhood — the South Phoenix Two Basins Project, which includes the design and construction of two stormwater detention basins serving the South Mountain/Laveen region.

## Project Overview

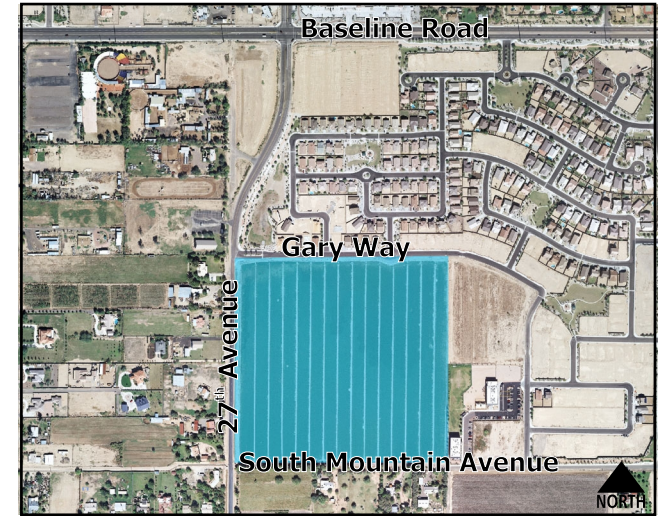

In 1996 the District's South Phoenix/Laveen Drainage Improvement Project Feasibility Study identified a recommended plan for regional flood control features such as detention basins and a storm drain system to convey stormwater to the Salt River. Many of these regional flood control features outlined in the plan have been constructed.

The South Phoenix Two Basins Project is another result of the recommended plan. In this partnership between the District and the City of Phoenix, stormwater detention basins are being designed for construction in undeveloped land at the northeast corner of 43rd Avenue and Baseline Road and the northeast corner of 27th Avenue and South Mountain Avenue.

Once constructed, both basins will be owned and maintained by the City of Phoenix. The 27th Avenue basin has the potential to be a future multi-use recreational facility operated by the City.

## 27th Avenue and South Mountain Avenue Basin

- 38-acre site
- Will connect to existing storm drain in 27th Avenue
- Potential future multi-use recreational facility

Map not to scale.

## 43rd Avenue and Baseline Road Basin

- 22-acre site
- Will connect to existing storm drains in Baseline Road and 43rd Avenue

Map not to scale.

## You Are Invited to an Open House

At the open house, you will have the opportunity to learn about the project details, view project design alternatives, and speak with project team members from the District, City of Phoenix, and the engineering and landscape architecture consulting firms.

### Public Open House

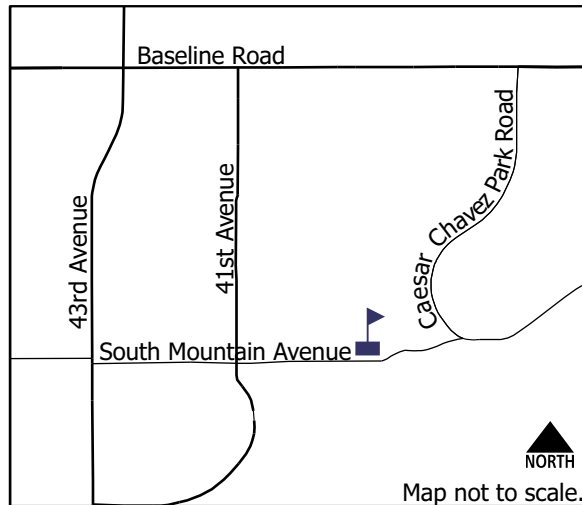

Wednesday, December 7, 2011

6:00–7:30PM

Vista Del Sur Traditional School

3908 West South Mountain Avenue

Laveen, Arizona 85339

### Contact

Tony Beuché, P.E.

Project Manager

Flood Control District of Maricopa County
